REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a process as claimed in which the product from the first step is passed over the claimed catalysts in the presence of the corresponding stripping gases. The declaration filed on October 27, 2003 indicates that the supported metals do materially affect the characteristics of the material and therefore, the language "consists essentially of a non-reducible metal oxide" excludes the materials disclosed by Harandi.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
